SECTION 8.03 WATER AND SEWER CONNECTION FEES

Pursuant to Section 66001 of the Government Code, the City Council hereby determines:

- (1) The purpose of the water and sewer connection charges is to assure payment by developers of their pro rata share of the escalated cost of the City's water system and wastewater treatment plant.
- (2) The charge will be used to reimburse the City for the owner or developer's fair share of the use of the water system and the treatment plant.

WATER AND SEWER CONNECTION FEES (contd.)

- (3) There is a reasonable relationship between the use of the fees, the need for a water system, the need for a wastewater treatment plant, and the types of development projects upon which the fee is imposed. All development projects create varying needs for the consumption of water which cannot be fulfilled unless the project is connected to the municipal water system to assure an adequate supply of water to each project, and all development projects generate sewage and create the need for disposal and treatment at a wastewater treatment plant. The degree to which each project is charged is based upon factors related to degree of potential usage, such as type and size of projects and number of units and calculations of the escalated cost of the City's wastewater treatment plant, adjusted for inflation; the current capacity of the plant; the cost of treatment per equivalent single-family dwelling unit; and the estimated daily discharge for each facility to be connected to the wastewater treatment system, taking into account proportionate average daily discharge of sewage, total organic carbon, suspended solids, and ammonia nitrogen.

The fees or charges shall be collected from the owner or developer of property either (1) prior to approval of the original connection of the property to the water or sanitary sewer system, or a redevelopment, or (2) in the event the uses being made of the property presently connected to the system are enlarged, added to, or further structures are constructed on the property.

FIRE HYDRANTS AND HYDRANT METERS (contd.)

C. WITHDRAWAL PERMIT. An annual nonrefundable permit fee is established as the charge for a permit to withdraw water from any fire hydrant in the City when a permit is issued between January 1 and September 30. If the permit is issued from October 1 through December 31, the fee shall be 50% of the foregoing. The amount of the deposit for the meter required for such water withdrawal furnished by the City shall be	<u>\$215.00</u>
or	
the current cost of a hydrant meter, whichever is greater. The total amount due and payable prior to the receipt of a meter is (permit fee plus deposit):	<u>\$1,710.00</u> <u>2 1/2 times</u> <u>\$1,924.00</u>

Each permit is valid through December 31 of the calendar year in which the permit was issued. Failure to return the hydrant meter on or before the expiration date shall result in automatic forfeiture of any deposit paid. When hydrant meters are returned prior to or on the expiration date, the cost for any consumption as measured by the meter shall be charged using the industrial rate block and deducted from the deposit amount. If a hydrant meter is not returned prior to or on the expiration date, the permittee shall be billed the cost of any consumption at the monthly industrial block rate. Any damages or missing hydrant wrenches will also be deducted from the deposit. The remaining balance shall be refunded. Any charges in excess of the deposit shall be billed to the permittee.

FIRE HYDRANTS AND HYDRANT METERS (contd.)

The following definitions shall apply to this section:

- (1) "Hydrant service area" shall be defined as the area that a hydrant will serve the normal fire protection needs as determined by the City, taking into account the street pattern, type of development, size of water service mains, and all other factors bearing on plans for fire prevention and suppression.
- (2) "Frontage" shall be defined as (a) that side of the lot on which the water service is installed to serve the lot for one-family or two-family residential corner lots, (b) the frontage measured along all public rights-of-way of the parcel being developed or improved for commercial, institutional, industrial, multiple family property.
- (3) "Development" or "Improvement" shall be deemed to occur when a Building Permit, Development Permit or Subdivision Agreement is required, except when the additional floor space is less than one additional residential unit or less than 1,000 square feet of additional gross floor area. In the case of developments other than residential, "development" or "improvement" shall also be deemed to occur whenever a parcel of property is redeveloped under a different zoning classification.

SECTION 8.06 STREET LIGHTING

\$25.00

The sum per lineal foot shall be collected from the owner or developer of property at the time a Development Permit, Subdivision Agreement, or Building Permit is issued in each case where the City recommends that the installation of the street lighting system be delayed, or where the street lighting system was previously installed at City cost.
